Virbac

Lethabarb®

Euthanasia Injection

- Smaller 250mL size, ideal for house-calls and ambulatory practice*
- 250mL bottle fits in smaller safety lock boxes
- Plastic bottle to help avoid accidental breakages and contamination of clinics or the environment
- Lethabarb should be stored upright below 25°C (air conditioning)
- Trusted by Australian veterinarians for 25 years
- First choice for clinicians when responsible, humane euthanasia of animals is required.
- Now available from your wholesaler in both 250mL or 450mL bottles

*Lethabarb should not be stored in vehicles due to the likelihood of temperature exceeding the storage conditions
